

**UNITED STATES DISTRICT COURT  
FOR THE SOUTHERN DISTRICT OF NEW YORK**

---

**AARON ABADI,**

Plaintiff

V.

**AMERICAN AIRLINES, INC., et al**

---

**CASE # 1:23-cv-04033-LJL**

**PLAINTIFF'S RESPONSE IN OPPOSITION TO**  
**THE JOINT MOTION TO DISMISS BY DEFENDANTS,**  
**PHILIPPINE AIRLINES, INC. AND ASIANA AIRLINES, INC.**

BY:

AARON ABADI  
Pro Se Plaintiff  
82 Nassau Street Apt 140  
New York, NY 10038  
Tel: 516-639-4100  
Email: aa@neg.com

NOW COMES the Plaintiff, Aaron Abadi, proceeding pro se, in response to the Motion to Dismiss (Docs. 264-267) filed by PHILIPPINE AIRLINES, INC. (“PAL”) and ASIANA AIRLINES, INC. (“Asiana”). While the Complaint extensively addressed numerous issues raised in the motion, this response aims to provide further elaboration on certain aspects and address matters not initially covered in the Complaint.

Mr. Abadi, the Plaintiff, contends that the Complaint thoroughly outlined the discriminatory actions he faced due to his sensory processing disorder, rendering him unable to comply with mask requirements imposed by the airlines. These actions included denial of boarding, verbal abuse, and even abandonment in France by certain of the airlines. Despite presenting evidence of his disability, the airlines allegedly disregarded his condition.

The repercussions of the airlines' actions have inflicted severe financial hardships upon Mr. Abadi, who, now financially destitute, sought the assistance of the Court through an IFP Motion. The adverse impact on his income, coupled with the alleged discrimination, forms the basis of the Plaintiff's claims. The Motion to Dismiss challenges multiple Counts within the Causes of Action, prompting this response from the Plaintiff to address the contentions raised by PAL and Asiana.

**PLAINTIFF IS NOT A TESTER & HE HAS STANDING TO SUE**

The Defendants argue regarding Plaintiff's standing, since tickets were not purchased for these two airlines, and Defendants went on to accuse Plaintiff of being a "tester." This is a similar argument that the Court made in an Order (Doc. 269) requesting that Plaintiff submit a supplemental brief to address these issues. Plaintiff submitted the requested brief (doc. 301). This response will be very similar to that one. It is crucial to emphasize that the Plaintiff is not a tester and genuinely needed to fly with at least some of the various airlines. The extent of the injuries suffered would have been mitigated had five airlines, for instance, accommodated the Plaintiff's travel needs.

In the Complaint, Plaintiff explains that he needed to travel for work/business, and would have liked to travel for pleasure too.

In Paragraph 197 of the Complaint Plaintiff wrote with respect to Defendant Aeroflot: "This airline could have flown me to various countries where I could have completed my business transactions."

Yet, Plaintiff never suggested that he has business in Russia, as he does not. Yet, he alleged that Aeroflot, the Russian airline could have flown him to his business meetings.

Please allow me to explain. Most people think of an airline as a destination. If you take a Spanish airline, you must be going to Spain. That is not exactly how it

works. A typical trip to India usually consists of multiple flights, and often more than one airline.

Please see my itineraries that I attached as an Exhibit to the Complaint (Exhibit 78 of the Complaint on Page 25). You will see a flight leaving from Philadelphia, PA, heading to Riyadh, in the Kingdom of Saudi Arabia. You will see the following itinerary:

The first flight was over 7 hours on British Airways (flight # BA68) from Philadelphia to LHR (London) with a 4hr and 40 minute layover in London.

The next leg was from LHR to Abu Dhabi International Airport (AUH) in the United Arab Emirates. This flight was on Etihad Airlines (EY20). This flight was also over 7 hours. There was a 1 hour and 5 minute layover there.

Then the final leg of that particular trip was from Abu Dhabi to Riyadh. That was a two-hour flight, also with Etihad Airlines.

If Plaintiff were to fly direct, it would have been much more expensive, and very limited in flights. The norm for this Plaintiff and travelers in general going that far around the world, they stop over at least once and often twice or more. The return flight from that trip (Page 35 Complaint Exhibit 78) was from Bangalore, India. Now, while I was lucky enough to be on the one Lufthansa airline for the entire trip back home, but there were two stopovers on the way. I do not always

get that lucky. Usually, I end up on more than one airline on any given trip to that region.

Interestingly, on the flights back from that region, it is almost the same travel time to cross the Atlantic Ocean by stopping in Europe, as it is to cross the Pacific by stopping in Asia. These trips seldom take less than an aggregate of 24 hours straight.

Plaintiff wrote in the Complaint in Paragraph 839, “Any one of these airlines could have gotten him to some of those destinations. For example, Aeroflot’s flight to Russia would get him to Moscow and from there he can get a flight to India. The airlines did not allow this Plaintiff to travel.” This was explained in the Complaint in several places.

Most of those long trips that Plaintiff has taken in the past have been with stopovers and usually with more than one airline. Often Plaintiff will stopover for a night and day, just to make the trip more bearable. Traveling straight 24 hours, is brutal.

This Plaintiff had to fly for business and wanted to fly for pleasure too. He listed in the Complaint some of the destinations that he wanted or needed to reach.

He writes in Paragraph 838 of the Complaint, “Plaintiff’s business prospects required him to fly to California, England, Switzerland, Israel, Florida, Texas, Chicago, India, Saudi Arabia, United Arab Emirates, and many other destinations.”

Plaintiff initially bought tickets during the period where there was the mask policy and/or mandate. He bought on British Airways, he bought on JetBlue, he bought on Delta, he bought on American, and likely bought a few more. Once he realized what he was facing, that airlines refused to follow the law, and refused to allow him to travel, he understood that his business could suffer significantly. He realized that he needs to figure out a way to travel, other than by rowboat.

At that point, he started calling airlines. He found a list of about seventy airlines on the Dept of Transportation's website. He started reaching out to the airlines that he was reasonably familiar with, like Lufthansa, Etihad, Emirates, and so on. All these airlines are from other countries, but one can easily fly to Germany on Lufthansa and then head to India or Saudi Arabia from there. When they all turned him down, he eventually reached out to every airline on the list. Almost all turned him down. Eventually, after first turning him down, Air France revisited the issue and allowed Plaintiff to fly with them, through Paris, to India. Unfortunately, finding available flights wasn't very easy, and many were cancelled randomly.

The other airlines were a problem. Plaintiff did not sue all the sixty-nine airlines. He only listed here as Defendants the ones that could have helped him reach any of his destinations. There are probably over twenty airlines that were

deliberately omitted from this lawsuit, because Plaintiff did not think they could have helped him significantly.

The Court listed the following airlines, and asked for Plaintiff to explain how he would have standing to sue them. The question is, how could they have assisted you in getting to where you needed to go. The other question was, since you didn't buy a ticket, it looks like you really weren't needing to go, or at least, that is how I understood it.

I explained why I couldn't buy tickets on 70 airlines or 46 airlines, just in order to prove that I wanted to fly. I did buy several tickets, and I did eventually get to fly a few times on Air France, back and forth to India. I was successfully able to fly on Delta to Israel once. I had a hard time getting back though. I've done a lot of driving wherever possible. That was also brutal.

But to be sure, Plaintiff could not afford to buy multiple tickets at over \$1,000 a piece just to see if they will let him fly. Anyone who has experience with the airlines can attest to the fact that if they do give you a refund, it doesn't come quickly. Besides, there was no need to buy the ticket, if I can quickly determine if they will allow me to fly, by sending them an email.

See the Complaint Paragraph 179, where Plaintiff quotes the following decision:

“...the ADA does not “require a person with a disability to engage in a futile gesture if such person has actual notice that a person or organization covered by [Title III of the ADA] does not intend to comply with its provisions.” Equal Rights Center v. Uber Technologies, Inc. (D.D.C. 2021) 525 F.Supp.3d 62, 76.

Now, while that is an ADA case law, the Courts usually treat Air Carrier Access Act (“ACAA”) cases in the same way as ADA without any clear legislation to the contrary.

There is no law or requirement for Plaintiff to buy a ticket in order to be protected by the ACAA disability laws.

With regards to the specific airlines and Plaintiff’s ability to get to any of his destinations with each of them, let us analyze that. Plaintiff will list both airlines and show how that airline could have helped him get to some of his destinations:

#### **ASIANA**

This is a great airline that goes to India, Europe, and the Middle East from the United States. They have multiple destinations around the world (Exhibit A). They would have been the perfect airline to get me to Europe, India, and the Middle East.

#### **PAL**

This is also a great airline that goes to India, Europe, and the Middle East from the United States. They have multiple destinations around the world (Exhibit B). They would have been the perfect airline to get me to Europe, India, and the Middle East.

The assertion made by the defendants, stating, "Routing through Manila or Seoul to travel to Mr. Abadi's regular business destinations would have entailed many extra hours if not days of travel, making those routes highly implausible," is factually incorrect. While the travel duration to certain destinations, such as India, may be slightly extended when transiting through Manila or Seoul, the return journey entails a comparable time frame.

In support of this, the plaintiff has presented evidence (Exhibit C) featuring a flight itinerary from Delhi, India, with layovers in Seoul, Korea, and ultimately reaching New York within a total flight time of 22 hours and 10 minutes. Although this duration may seem lengthy, a similar flight originating in Delhi, progressing through Germany with Lufthansa, exhibits nearly equivalent flight times, with variations being minimal (Exhibit D), ranging from 20 hours and 35 minutes to 24 hours. PAL had similar options at the time for that region. When you fly 22 hours, and you have an option that is 26 hours, there is barely a difference.

The contention that opting for routes through Manila or Seoul would result in significantly increased travel hours is unsubstantiated. Furthermore, it is

imperative to note that the plaintiff, lacking alternative travel options, would have been compelled to endure additional flight hours irrespective of the chosen route.

The plaintiff has submitted an itinerary documenting a trip undertaken in the year 2016 (Exhibit E). Notably, he utilized Amtrak for the journey from Philadelphia to Newark Airport, subsequently flying on United to Boston. From Boston, he proceeded with Lufthansa to Frankfurt and then continued with Lufthansa to Bangalore, India. On the return leg, the plaintiff followed a route encompassing flights through Bangkok and Tokyo before arriving in New York, crossing the Pacific Ocean. Such flying patterns were recurrent for the plaintiff.

The defendants contended that even if they were to permit the plaintiff to travel with them in accordance with United States laws, Mr. Abadi would face travel restrictions due to the foreign laws of Korea and the Philippines.

Additionally, they cited the necessity of quarantine, asserting that Mr. Abadi would be subject to such measures. It is crucial to clarify that quarantine requirements typically apply to individuals exiting the airport, and those on stopovers with continuous travel plans are generally exempt from such obligations. The plaintiff, drawing from personal overseas travel experiences, attests to the customary respect and consideration extended by foreign countries in accommodating exemptions for individuals with disabilities.

Furthermore, in the context of foreign regulations, it is pertinent to highlight the provisions of the Air Carrier Access Act ("ACAA"), which imposes specific requirements. Denying access to a disabled person without due consideration of these laws and requisite steps is impermissible. According to 14 CFR § 382.9:

"What may foreign carriers do if they believe a provision of a foreign nation's law conflicts with compliance with a provision of this part?

(a) If you are a foreign carrier and believe that an applicable provision of the law of a foreign nation prevents compliance with a provision of this part, you may request a waiver of the provision of this Part.

(b) You must submit such a waiver request to the following address:  
Assistant General Counsel for Aviation Enforcement and Proceedings, C-70 U.S.  
Department of Transportation ("DOT"), 1200 New Jersey Avenue, SE., Room  
W96-322, Washington, DC 20590."

Given that the defendants did not adhere to these legal procedures, failed to request, and did not obtain a waiver from the DOT, the justification of foreign regulations falls short in excusing their alleged discriminatory actions.

### **ABADI HAS AN ADA/ACAA DISABILITY**

The medical professionals responsible for Mr. Abadi's care have affirmed both the existence of his disabilities and their alignment with the criteria outlined

in the Americans with Disabilities Act (ADA) and the Air Carrier Access Act (ACAA) for classification as disabled. The Complaint provides detailed elucidation on this matter, supplemented by relevant exhibits (Exhibits 6, 7, 8, & 9).

The presented argument challenging Mr. Abadi's disability status is deemed inappropriate and offensive, and inappropriate within the context of a motion to dismiss. Such a motion is an unsuitable platform for engaging in a substantive debate on this issue. The plaintiff respectfully urges the court to reject and dismiss this argument outright.

**ABADI'S RESPONSES TO THE MOTIONS TO DISMISS FILED BY THE  
OTHER DEFENDANTS ARE HEREBY INTEGRATED INTO THIS  
DOCUMENT**

The two aforementioned defendants have referenced and incorporated various motions to dismiss by other parties, including documents identified as "Dkt. 122, Dkt. 180, Dkt. 198, Dkt. 213, Dkt. 218, Dkt. 233, Dkt. 234-1," and the "Memorandum of Law" scheduled for submission on January 9, 2024, by Clyde & Co. The plaintiff questions the appropriateness of this strategy, as it entails directing the court to review multiple filings on the docket and incorporate them into the motion.

Nevertheless, in the event that the court accepts the defendants' approach, the plaintiff counters these arguments by incorporating the responses previously submitted to the court in connection with those motions. These responses include documents labeled as "Dkt. 172, Dkt. 194, Dkt. 240, Dkt. 247, Dkt. 249, Dkt. 250, Dkt. 257," and the plaintiff's forthcoming response, to be filed by February 13, 2024, in opposition to the motion to dismiss by Clyde & Co. (Dkt. 273). This incorporation encompasses any other responses made to motions in this case. Despite the defendants' reliance on the motions of other parties without elaboration, the plaintiff has diligently addressed all pertinent claims both in the initial complaint and in subsequent responses to those motions.

### **CONCLUSION**

This case is a complex case, with many aspects, both of facts and legal issues. The above response in conjunction with the Complaint itself should sufficiently resolve any of the issues brought up in the Motion to Dismiss. The U.S. Constitution affords each citizen their own due process. Plaintiff asks this Court to allow for the lawsuit to proceed and we can address all these items in trial. A motion to dismiss should not be used to take away a person's right to justice.

**WHEREFORE**, Plaintiff asks this court to DENY this motion to dismiss in its entirety, and to schedule an Initial Case Management Conference in accordance with Rule 16(b) of the Federal Rules of Civil Procedure.

Respectfully submitted this 2<sup>nd</sup> Day of February, 2024.

List of Asiana Airlines destinations - Wikipedia

## List of Asiana Airlines destinations

---

As of October 2023, **Asiana Airlines** offers regular passenger and cargo service to over 80 destinations (except seasonal charter destinations) in 26 countries from its two hub airports, Incheon International Airport and Gimpo International Airport in South Korea. Outside South Korea, the countries with the largest number of airports served by Asiana Airlines are China with 24, Japan with 9 and the United States with 10.<sup>[1]</sup>

As of July 2020, Asiana Airlines operates between Incheon and 22 cities in China, and along with Korean Air is one of the two largest foreign airlines to operate in the People's Republic of China.<sup>[2]</sup>

# EXHIBIT A

Since the COVID-19 pandemic was declared in January 2020, Asiana Airlines has suspended most domestic and international routes. As of October 2023, Asiana Airlines operates limited domestic and international routes.<sup>[3]</sup>
